NEW ACTIVITIES

11+ Study Course

Designed as an introduction to our 11+ syllabus for Yr5 students, these sessions are useful as a stand-alone study course or as part of the wider Recre8 11+ programme. Tutors will provide initial feedback for each student to help inform future tutoring decisions. Students with previous experience from their Yr4 year are also more than welcome.

Cake Decorating - Halloween Witch Cake Topper

Get creative and make your very own spooky witch from fondant!

Children will sculpt, shape and decorate their witch, complete with a Rice Krispie treat base, flowing dress and fabulous witchy details. A fabulously fun, hands-on sugarcraft session with a magical finish!

Game, Set & Smash

Three sports. One course. Endless fun!

Game, Set & Smash is an exciting children's racket sports course where young players can discover **tennis**, **badminton** and **table tennis** all in one action-packed programme.

Through fun games, activities and challenges, children will develop their balance, movement, hand-eye coordination and racket skills. Game, Set & Smash is all about being active, making friends, building confidence and having fun while learning new skills, so whether your child is picking up a racket for the first time or already loves racket sports, they're guaranteed a great time!
